

The future of work — prevention of overload and stress

1–6 September 2002, Naantali (Finland)

The second international seminar on the prevention of overload and stress in relation to the future of work will be held in Naantali, Finland, on 1–6 September 2002 by The Nordic Institute for Advanced Training in Occupational Health (NIVA). The seminar is aimed at providing the participants with increased knowledge and understanding of burnout as a problem of present and future worklife. The participants will also be provided an opportunity to relate their own experiences and practices concerning the prevention of burnout and collect new ideas for improvements. Occupational health and safety professionals, personnel of management organizations, educators, psychologists and researchers are invited to attend.

16th EPICOH congress on epidemiology in occupational health

and

Jack Pepys symposium on the prevention of occupational asthma

and

The 3rd international congress on women's health: occupation, cancer and reproduction

11–14 September 2002, Barcelona (Spain)

The joint scientific program of three congresses (the 16th EPICOH Congress on Epidemiology in Occupational Health, the Jack Pepys Symposium on the Prevention of Occupational Asthma and the 3rd International Congress on Women's Health: Occupation, Cancer and Reproduction) will cover all major topics of current epidemiologic research in occupational health. The program will feature daily plenary sessions with keynote speeches and submitted papers, parallel sessions with oral presentations, poster discussion and mini-symposiums, and postcongress workshops.

The official language will be English, but simultaneous translation from English to Spanish will be offered for all plenary sessions. The deadline for the receipt of abstracts is 1 March 2002.
